# Rudi Wiest Core List

We began working on the Rudi Wiest Core List in 1996. That original list included almost 50 wines, and at the time seemed very focused compared to the 300+ German selections we were offering. It didn't take long to figure out 50 wines were still too many selections for a core list. Over the years the RWS Core List has been refined to 20 wines by 2002. In 2004 we decided it was best to create two Core Lists, the "A Core List" which focuses on the twelve wines below, and a "B Core List" which includes twenty five additional selections.

The Rudi Wiest Core List offers wines from a variety of regions as well as a range of vinification styles. This makes it easy to construct a group of "workhorse wines" representing the best of German styles and flavors. We consider multiple factors when making Core selections, such as working with more progressive estates willing to bottle in Stelvin. However, the three fundamental core criteria are:

- 1. Quality & Value** - The RWS Core is sourced from our team of top German estates. This ensures the RWS Core offer's maximum quality and value for each wine type. For example, Gunderloch crafts our Rudi Wiest Rhein River, in addition to supplying both the Gunderloch "Jean Baptiste" Kabinett and Gunderloch "Diva" Spätlese core wines.
- 2. Continuity of Supply** - We work closely with estates to ensure there are no supply interruptions with RWS Core selections. It is our goal to have the twelve "A Core" selections listed below in stock on a year-a-round basis.
- 3. Supplier Support** - When customers support the RWS Core, we want to make certain those customers have not only our support, but also the support of the supplier. For these reasons, the RWS Core focuses on estates who support the American market.

The following wines currently make up the Rudi Wiest "A Core" List:

# Auction Wines

Attempts in organizing the Mosel-Saar-Ruwer growers were made after the secularization of many of the estates during Napoleonic occupation of the region. Gradually, three separate consortia came into being over the course of the 19th century, but it was not until 1908 that the first beginnings of today's Grosse Ring auction group were made.

In 1908, the Mayor of Trier, Albert von Bruchhausen, started making plans to form a single organization of the very best estates from the then existing three consortias. After two years of planning, and discussion with leading growers, a meeting was held in March of 1910. In May of the same year all necessary documents were filed with the City of Trier to establish the Grosse Ring Auction Group. Member estates could only present "nature" wines, or completely natural wines (today's Prädikat wines) at the auction. Neither chaptalization nor acid adjustments were permitted by the member estates. 1968 was the last auction where the wines were sold in Fuders (a barrel containing 1000L or about 100 cases (12x750ml)). Today all wines at the auction are offered in 375ml, 750ml, and 1.5L bottles. Since 1976, Eberhard von Kunow proprietor of the von Hövel estate has been the auctioneer.

In the past, an estate's whole production was sold through the auction, today only special selections are offered. Below is a list of selections made at the 2004 Auction which have just arrived to our warehouse.

# Riesling Rarities

## Joh. Jos. Prüm

The J.J. Prüm wines have a reputation for being very long-lived and Dr. Prüm suggests that even his Kabinett wines be cellared for five years. Unlike his late father, Manfred prefers to drink the light and racy Kabinett's which are so typical of the region. As for his great late-harvest Rieslings, he chooses to share these with experienced wine-tasting colleagues. Here is your chance to pick up some of Manfred's sought after collection that he has recently released from his Cellar.

## Wegeler

We discovered two additional older Rieslings from Wegeler that we cannot resist bringing in because of their excellent quality and freshness, and are excellent examples of how great Rieslings can be with a bit of age. Don't miss out on these two selections, one from the Mosel - '94 Wehlener Sonnenuhr Spätlese, and one from the Rheingau - '93 Geisenheimer Rothenberg Auslese.

## Karthäuserhof

Near the conclusion of our tasting of the vintage at Karthäuserhof, Christoph Tyrell came from the cellar offering a limited quantity of '90 Auslese. Once we tasted the wine, it was immediately evident that we would be bringing in some to offer to our Karthäuserhof fans... You will not be disappointed!

## Forstmeister Geltz-Zilliken

If you have had the pleasure of having Hanno Zilliken take you on a tour of his cellar, you are already sold on Zilliken's older selections and might even have some of the selections below. Hanno is another winemaker that sees the great value in holding back some of his wines each vintage to re-release at a later date to experience their development and show customers the great ageing potential that Riesling possesses.

## Bert Simon

We continue to be very impressed with Bert Simon's offerings from the late '80s and '90s. We continue to sell the '89 GKAs and have added the '96 Serriger Würtzberg Spätlese and the '90 Serriger Würtzberg Auslese. What is so unheard of about these wines is the fact that these have been cellared for over a decade at the estate in a pristine environment for ageing, and they are unheard of values!
